

**Strutt's Park**  
Residents' Association

## **SPRA COMMITTEE MEETING 9 SEPTEMBER 2020**

### **KEY POINTS**

#### **Looking to the future**

With the likely forthcoming changes to the planning system in England, and the expressed desire for local people to make more input to the process, and with a desire among members of the SPRA committee to build on the increase in community spirit evidenced in the early days of the 'lockdown' we are hoping it will be possible to formulate something of a clearer vision for the future of the Strutt's Park area. The committee will try to formulate a plan to engage more with SPRA members and the community more widely.

#### **Parking on Pavements**

The Government have launched a consultation on options for controlling parking on pavements. Rather than try to formulate a SPRA response to the consultation we suggest that individuals might care to make their opinions known, using the following link:

<https://www.gov.uk/government/consultations/managing-pavement-parking/pavement-parking-options-for-change-how-to-respond>

#### ***Planning for the Future Government Consultation***

The SPRA committee hopes to respond to this important consultation in concert with the National Organisation of Residents' Associations. Thank you to those couple of members who have made known your views. If there are changes to the planning system as a result, we hope to help local residents make input to the new system.

#### **Autumn 2020 Newsletter**

Hopefully this will be with you before the next committee meeting.

#### **Next committee meeting**

This meeting will probably have to be held electronically, sometime in November. If you have any issues you would like considered, please let the Secretary know.
